

NAME

THE PLANETS

TASK 13: CAN YOU NAME EACH OF THE PLANETS BELOW AND COLOUR THEM IN THE COLOUR THAT YOU THINK THEY SHOULD BE?

PLANET: <input type="text"/>	PLANET: <input type="text"/>	PLANET: <input type="text"/>	PLANET: <input type="text"/>	PLANET: <input type="text"/>	PLANET: <input type="text"/>	PLANET: <input type="text"/>	PLANET: <input type="text"/>
DAYS: <input type="text"/>	DAYS: <input type="text"/>	DAYS: <input type="text"/>	DAYS: <input type="text"/>	DAYS: <input type="text"/>	DAYS: <input type="text"/>	DAYS: <input type="text"/>	DAYS: <input type="text"/>

WE HAVE EIGHT PLANETS IN OUR SOLAR SYSTEM. THEY RANGE IN SIZE, COLOUR AND THE SPEED AT WHICH THEY ROTATE AROUND THE SUN.

THE FURTHER AWAY FROM THE SUN A PLANET IS, THE LONGER IT TAKES TO COMPLETELY ORBIT IT. EXTRA TASK 14:
 Here is a list of the number of days the different planets take to orbit the sun: 365, 60225, 225, 4380, 10585, 687, 30660, 88. Can you put them in order and write them against each planet?

DID YOU KNOW THAT THE EARTH ONLY HAS ONE MOON. BUT THERE ARE MORE THAN 180 MOONS IN TOTAL THAT ARE ORBITING THE PLANETS IN OUR SOLAR SYSTEM?
